Law may be Updated for Adequate Oil Assets Compensation

Oil ministry draws up plan to protect investors against expropriation after consultations with law and finance ministries, may present proposal to Cabinet soon

Sanjeev.Choudhary @timesgroup.com

New Delhi: The government is Econsidering reforming the law goo-verning the petroleum sector to Eprotect investors against the ex-Epropriation of their assets, a measure that would directly address a key concern raised by energy giant

Evestors to reasonable compensa- tion sector, primarily because so-

ted their assets, according to people familiar with the matter.

The oil ministry has completed consultations with the law, finance and other ministries on the matter, they said, adding that the proposal may soon be presented to the Cabinet. After the Cabinet's approval, the proposal may be introduced in Parliament. India has introduced a slew of reforms in the past decade but has The oil ministry has drawn up a struggled to attract foreign invesproposal, which would entitle in- tors to the exploration and produc-

me of the key issues have been left unaddressed creating uncertainties for oil and gas investors who already face enormous challenges

due to climate change. ExxonMobil, which has spent vears studying India's geological data and expressed willingness to invest in the country, wants policies to be made more investor friendly.

"India should offer globally competitive fiscals, enable those to stay intact, provide protection against expropriation, and (permit) neutral arbitration," Monte Dobson, le-

Banking Sector Recovery has Given Leg Up to GDP Growth

ಸ–Lessons learned from response to global fin crisis of 2008; policies were announced to deal with Covid, but came with expiration date

ADITYA MURLIDHARAN & PRASANNA TANTRI

The recently announced better-Ethan-expected GDP growth number =for 2022-23 has triggered discussions Eabout the current Indian macroeconomic policies. The impressive recovery of the banking sector has contributed significantly to this turnaround. The recent handling of the banking system in India represents a textbook case of learning from past mistakes and using counter-cy-fects having the potential to dama-N_Eclical policies in their true spirit.

A good starting point for under-Response to the global financial cri- the policy response to the Covid 19 ting low-quality borrowers is a -an policymakers announced several counter-cyclical measures starting temporary loan moratoriin August 2008. The most important um. However, all such poli-N_Eamong them was allowing banks to cies came with well-defi-Erestructure loans without treating ned expiration dates, such loans as nonperforming assets which were adhered to =(NPAs). In other words, a forbearan- with minor relaxation.

ce on loan loss recognition. Banking regulators worldwide an restructuring activity Frequire banks to recognize the ris-over time. The vertical axis -kiness of restructuring transac-represents the weighted av-Etions by treating them on par with erage of the ratio between

Esions. Such provisions Eensure that banks are -well capitalized to deal Ewith any future shocks arising from defaults on =restructured loans. The requirement also preevents misuse of restructuring to postpone recognising loan losses. Crisis times are diffe-
