4. During earlier years, owing to the changes in design and scope of work which resulted in differences and disputes between the parties, there were certain claims of cost over-runs in respect of Heera Redevelopment Project with Oil and Natural Gas Corporation Limited. Based on the developments during the year and opinion of independent external experts, the auditors have removed the emphasis of matter on the recognition of such claims pending before arbitration, which they had reported in their reports on financial results for the year ended March 31, 2017.

5. The net worth of the Company has deteriorated further as at March 31, 2018 and there are delays/ defaults in repayments of dues to its lenders. In view of the above, the Company has submitted a proposal to its lenders for restructuring of its debt. Restructuring is essential for the company's ability to continue as a going concern and ability to realise its assets and discharge the liabilities in the normal course of business. The restructuring proposal is under active consideration by the lenders as per the latest RBI guidelines. Subsequently, the Company will obtain mandatory approvals from other stakeholders. The management is confident of favourable restructuring within stipulated timeframe and also getting the necessary approvals. Additionally, to improve operational efficiencies, the Company is taking various measures, including monetizing its identified assets as avenues of raising funds. The management is confident that with the above measures, the Company would be able to generate sustainable cash flow, discharge its short term and long-term liabilities and improve its net worth through profitable operations and continue as a going concern. In view of the above, these results been prepared on a going concern basis.

6. Based on the guiding principles given in Ind AS 108 on 'Operating Segments', the Company's business activity falls within a single operating segment viz. Engineering, procurement and construction services. Accordingly the segment disclosure requirements of Ind AS 108 are not applicable.

7(a). Tax expenses are net of deferred tax effects, minimum alternative tax credit and earlier year taxes.

(b). The Company has business losses and unabsorbed depreciation which are allowed to be carried forward and set off against future taxable income under Income Tax Act, 1961. Owing to uncertainties in earlier years regarding future profits, the Company had refrained from recognising deferred tax assets on such carried forward losses and unabsorbed depreciation. However, the Company has undertaken several measures to improve operational efficiency which have resulted in increased revenues and higher margins. Further, as stated in Note 5, the management is confident of a favourable outcome of its restructuring proposal submitted with its lenders. Accordingly, based on projected future taxable income and results of operations, the management believes that the Company will more likely than not have sufficient taxable income in future allowing it to realize the carried forward losses and unabsorbed depreciation. In view of the above, the Company has recognised deferred tax asset of Rs. 119,900 lacs, on conservative basis, during the year and is confident that such asset carried as at March 31, 2018 is fully recoverable.

8(a). Previous quarters/ year's amounts have been regrouped / re-arranged wherever necessary to conform to the current quarter's / year's presentation.

(b). Exchange differences are clubbed under 'Other income' or 'Other expenses' based on the resultant net amount.
