

Acropolis Capital, Punj Lloyd to create online equipment bank

Acropolis Capital Group and Punj Lloyd have joined hands to create a virtual platform, IronTread, which will provide equipments to infrastructure companies. The platform is partnering with leading infrastructure companies in the region to create the largest virtual equipment bank in Asia. All the participants on the platform will benefit from renting, selling and buying to each other via a robust auction-led process. "As the first peer-to-peer, equipment rental company in India, IronTread aims to transform the way contractors make purchasing and rental decisions for construction equipment," Punj Lloyd said.
