

Punj Lloyd bags orders in T&D segment

New Delhi, October 7

Punj Lloyd, a diversified engineering, procurement and construction company, has announced its foray in the power transmission and distribution sector with two orders in the segment. On Wednesday, the company said it has won ₹488 crore worth of projects in the power sector including two transmission and distribution segment orders. The orders have been awarded by Power Grid Corporation for rural electrification. The company also said that it has won its first power project from
