

We have gone to great depths in offshore projects, to rise beyond our client's expectations.

18 years of experience. 8,000 km of cross-country pipelines. In terrain ranging from hard rock to swamps, tropical rain forests to deserts, nearshore to offshore. Track record of cutting project timeframes. Little surprise then, that we are awarded prestigious projects around the globe with repeat orders and accolades from clients.

We are presently executing the offshore Heera Field Re-development project for ONGC and the offshore Uran Trombay Gas Pipeline within challenging time schedules. Fifth in a series of repeat contracts from TOTAL E&P Indonesie is our swamp pipeline for Tunu Field Development Phase 9, Indonesia.

Along with group companies Simon Carves and Sembawang, we offer a range of services across the globe.

The Punj Lloyd Group

We'll go to the end of the world to give you the best on earth.
